DETAILED ACTION

This action is in response to applicant's amendment received on 18 December 2006. Examiner acknowledges the amendments made to the claims.

Claim Objections

1. Claims 26 and 28 are objected to because of the following informalities: On lines 10-11 of Claim 26 and lines 6 and 8 of Claim 28 it reads "first mating" and should just be --mating-- unless applicant wishes to use "first" and "second" before each element (protrusion, standing portion, mating window, and mating hole). Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 30-32, 34-35, 39-41, 43-44, and 46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In these claims it is indefinite as to which element (protrusion, standing portion, mating window, and mating hole) belongs to which interlocking member (first or second) or both. For instance, on line 1 of Claim 30 it reads "the protrusions," but it is indefinite as to which protrusions the applicant is referring to. If applicant is referring to protrusions on both interlocking

Application/Control Number: 10/612,631

Art Unit: 3734

members, then after "protrusions" it should read --of the first and second interlocking members--, or applicant may add "first" and "second" to all elements in independent Claims 26 and 28, and then add --first and second-- before "protrusions" in Claim 30.

4. Claims 33 and 42 recite the limitation "the assembly" in line 1 of both Claims 33 and 42. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

- 5. Claims 26-29, 36-38, 45, and 47 are allowed over the prior art.
- 6. Claims 30-35, 39-44 and 46 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record, alone or in combination, discloses first and second interlocking members with the combination of elements including a standing portion, a protrusion, which is smaller than a mating window, in the claimed configuration, such as all elements being disposed on both interlocking members. Prior art of record does disclose protrusions or standing portions, and mating windows, or mating holes, on interlocking members, yet lack the present invention's number, size, and positioning of the elements on both interlocking members.

Art Unit: 3734

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Diane Yabut whose telephone number is (571) 272-6831. The examiner can normally be reached on M-F: 9AM-4PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Hayes can be reached on (571) 272-4959. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
